

## F1 Protech Chair

Extendable headrest

Adjustable backrest

Fimet's top of the range F1 Protech dental chair features adjustable Knee Brake angle allowing patients to sit upright in the 6 o'clock position. At one press of the joystick foot control, the chair will automatically move into one of the 8 preset programs available.

Additional features include Trendelenberg tilt position, multi adjustable headrest, adjustable backrest, optional 180 degree swivel, dual joystick foot controls, twin armrests, self diagnosis, 24 volt safety operation and optional remote foot or hand control.

A reliable and affordable product with a 16 year Australian performance "track record".
