

## Medical Air Compressors Oil-Free Air Dryer - Silent from 54 – 76 db (A)

# IBMIBI

Bambi Air Compressors Ltd was established in Birmingham, United Kingdom in 1977 and enjoys a worldwide reputation for quality and after sales care and service. At the heart of the VT range is the all new Vee Twin pump unit with one of the lowest noise levels of any oil free compressor available, made possible by the very latest “tilting piston” technology. Every model is available with the innovative Air Dryer unit designed to guarantee “desert dry” air. The multi row, fan assisted after cooler reduces temperature prior to integral coalescing filter to collect and remove droplets as small as 0.01 microns. In this way, we remove 99% moisture content before the desiccant absorption system powers the dryness right down to -40 degree Celsius dewpoint.
